## ProTech NewGen The summer tyre

The new Viking ProTech NewGen impresses through a great balance and a strong price-performance ratio – just perfect for a long and safe time on the road. It is suitable for cars from compact and upper class all the way to the sporty UHP segments.

### Technical highlights

#### Safety and confidence under wet conditions.

The new ProTech NewGen offers you a new feel-good effect under wet conditions. Several block edges provide a strong wet grip and wide circumferential grooves as well as widening inner shoulder grooves ensure an effective water dispersion.

#### Feel the difference when it comes to handling and braking performance.

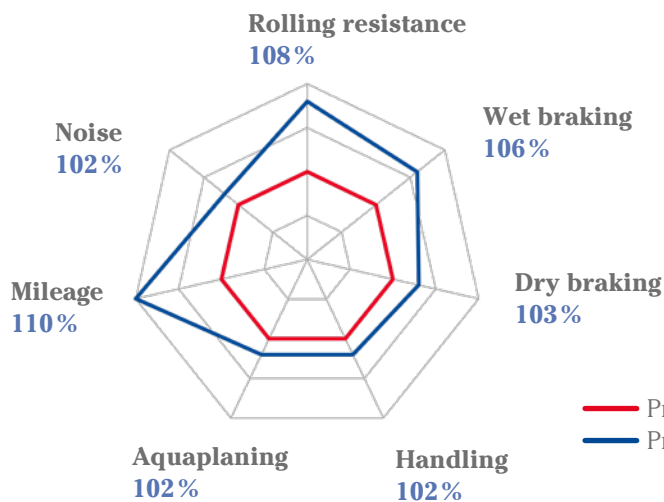

The enhanced pattern stability and the well balanced stiffness distribution make the difference when it comes to handling and braking performance. Inside shoulder grooves and rib notches are reinforced by tie bars to ensure high pattern stability. Longitudinal outside shoulder rib ensure rigidity and thin organic shaped sipes a smart stiffness distribution.

#### Easy on your wallet.

The ProTech NewGen is an expert for long tread life and fuel economy. It is the next generation of silica-enriched tread compound with a new polymer technology which lowers the tyre abrasion and increases the tyre lifetime. The compound also provides an optimized rolling resistance for a fuel saving and eco-friendly driving experience.

### Tyre performance

### Tyre dimensions

- ▶ Speed index: H / T / V / W / Y
- Rim size in inches: 15 – 19
- Tyre width in mm: 185 – 255
- Tyre cross section series: 35 – 70
- Loadindex (Van): 82 – 107
